

VETgirl is proud to announce four unique course series for certification in the areas of nutrition, emergency medicine (basic and advanced) and practice management. As on-the-floor clinicians, we know what you need to practice better medicine, provide better patient care, and ultimately save that patient's life. VETgirl certification is designed to give you the expertise that you need, geared for clinical veterinary professionals. Offered in unique tracks, these courses range from 12-60 hours of RACE-Approved CE for both veterinarians and veterinary technicians.

BASIC

## emergency medicine

**Are you a new graduate? About to start an internship? Transitioning from day practice to emergency?** Brush up on your emergency medicine to become a more confident, prepared, and knowledgeable emergency veterinarian. While emergency medicine can be stress-inducing and exhausting, it can also be exhilarating. This Emergency Medicine: Basic Certification was created by in-the-trenches, board-certified emergency critical care specialists, Dr. Justine Lee, DACVECC, DABT and Dr. Garret Pachtinger, DACVECC. This 35-hour course is carefully curated and designed to focus on the key areas of emergency medicine, and will make you feel well-rounded and comfortable with handling any HBC, BDL, UO, or CHF case coming through the door.

**Course Outline : 35 hours**

## veterinary nutrition

**Grain-free. DCM. BARF. Obese patients.** There's so much going on in veterinary nutrition right now... it's hard to keep up! Thanks to generous support from Hill's Pet Nutrition, earn your Nutrition Certificate and get the 411 on what's new in veterinary nutrition. From life stage nutrition to buzz words of pet food to urolith management, find out how you can improve your patient's health while helping your pet owners be educated advocates!

**Course Outline : 12 hours**

ADVANCED

## emergency medicine

**OK, so you admit, you're a pretty good emergency veterinarian.** You can handle those HBCs like a pro. You feel comfortable performing a thoracocentesis. You've been doing this for years. But now, it's time to take it to the next level. Brush up on more than the basics. This Emergency Medicine: Advanced Certification was created by in-the-trenches, board-certified emergency critical care specialists, Dr. Justine Lee, DACVECC, DABT and Dr. Garret Pachtinger, DACVECC. This 60-hour course is carefully curated and designed to focus on the key areas of emergency and critical care.

**Course Outline : 60 hours**

## practice management

**KPI. Inventory. HR. Leadership. Owning or running a small business is harder than it looks!** There's so much to know to make your veterinary clinic run lean, efficiently and smoothly. Earn your Practice Management Certificate and improve your business and leadership skills! (*NOTE: Please note that this is not a CVPM certificate.*)

**Course Outline : 30 hours**
