

VETgirl is proud to announce six unique course-series for certification in the areas of anesthesia/analgesia, emergency medicine (basic and advanced), ophthalmology, nutrition, and practice management. As on-the-floor clinicians, we know what you need to practice better medicine, provide better patient care, and ultimately save that patient's life. VETgirl certification is designed to give you the expertise that you need, geared for clinical veterinary professionals. Offered in unique tracks, these courses range from 12-60 hours of RACE-Approved CE for veterinary professionals.

anesthesia & analgesia

Is there more than just “kitty magic” or BAG? And how do you set up that Bain non-rebreathing system again? Haven't anesthetized anything in a while and need some help? What new drugs are out there now? Learn all you need to know about analgesia and anesthesia, so you can master how to safely anesthetize your patients!

Course Outline : 30 hours

ophthalmology

Do “check eye” cases make YOU cry? Feel good about treating glaucoma? Wait... does that cat have herpes?!? If eye cases make you see red, check out our amazing VETgirl ophthalmology lectures to help improve your ophtho skills!

Course Outline : 30 hours

BASIC

emergency medicine

Are you a new graduate? About to start an internship? Transitioning from day practice to emergency? Brush up on your emergency medicine to become a more confident, prepared, and knowledgeable emergency veterinarian. This course is carefully curated and designed to focus on the key areas of emergency medicine, and will make you feel well rounded and comfortable with handling any HBC, BDL, UO, or CHF case coming through the door.

Course Outline : 35 hours

veterinary nutrition

Grain-free. DCM. BARF. Obese patients. Thanks to generous support from Hill's Pet Nutrition, get the 411 on what's new in veterinary nutrition. From life stage nutrition to urolith management, find out how you can improve your patient's health while helping your pet owners be educated advocates!

Course Outline : 12 hours

ADVANCED

emergency medicine

OK, so you admit, you're a pretty good emergency veterinarian. You can handle those HBCs like a pro. You feel comfortable performing a thoracocentesis. You've been doing this for years. But now, it's time to take it to the next level. Brush up on more than the basics. This 60-hour course is carefully curated and designed to focus on the key areas of emergency and critical care.

Note: The basic emergency medicine certificate should be completed prior to the advanced course.

Course Outline : 60 hours

practice management

KPI. Inventory. HR. Leadership. Owning or running a small business is harder than it looks! Improve your business and leadership skills to make your veterinary clinic run lean, efficiently and smoothly.

This VETgirl practice management certificate has also been approved by the Certified Veterinary Practice Manager Board as applicable toward the continuing education requirement for the Certified Veterinary Practice Manager (CVPM) program offered by the Veterinary Hospital Managers Association (VHMA), CVPM Course Approval ID# 21-25.

Course Outline : 30 hours
